

**A commitment to providing great school facilities benefits everyone in our community.**

**The Sequoyah Board of Education, with guidance from our local facility planning team, created a 15-year plan in 2008. This plan has yielded proven results and with this final phase, positions us to continue providing excellent academic/extracurricular experiences for years to come.**

**The Sequoyah community will benefit from these improved facilities, now and in the future, from a bond issue that will NOT increase your property tax - a true WIN/WIN.**

***Soaring To The Future Together!***

**Dr. Terry M. Saul  
Superintendent**

# **Sequoyah Public School 2023 Bond Election**
